---

### Antivirus and Antispyware
- Eliminates all types of threats including viruses, rootkits, worms and spyware
- Provides real-time on-access scanning of the server-stored data
- Powered by the advanced ThreatSense® technology combining speed, accuracy and minimal system impact

### Cross-platform Protection
- Eliminates malware targeting all platforms, including Windows, Mac and Linux operating systems
- Prevents malware from spreading from one platform to another

### Low System Demands
- Delivers proven protection while leaving more system resources for the server’s vital tasks

### Remote Administration
- Compatible with ESET Remote Administrator and supports management through a web interface
- Gives you the option to schedule on-demand scans, actions and security tasks
- Allows you to customize log details and modify reports and notifications to help you monitor compliance with company security standards

### Distribution-Independent Solution
- ESET provides installers for the most popular distributions of Unix-based systems, including the ‘Ready’ variations of RedHat and SuSE that comply with the File-System-Hierarchy standard
- Requires no external libraries except for LIBC
