ConnectWise Automate Remote Monitoring and Management (RMM) platform, ConnectWise Automate Control Center is widely used to manage a variety of IT services including antimalware and endpoint security. ESET offers a solution for delivering best-in-class malware protection and full-disk encryption through the ConnectWise Automate environment.

**ESET Business Product Licenses**
- Active licenses of any of the following ESET endpoint products:
  - ESET Endpoint products for Windows and macOS
  - ESET Server products for Windows
  - ESET Endpoint Encryption

**System Requirements**
- ConnectWise Automate 11 or newer
- To review ConnectWise Automate system requirements, please visit ConnectWise Automate’s website.

**Features**

**MANAGE CLIENT ENDPOINT SECURITY**
Initiate on-demand endpoint scans, module updates and ESET security product activation, without requiring the ESET Security Management Center.

**MANAGE CLIENT CONFIGURATIONS**
Set ESET-specific configuration policies on Windows and macOS endpoint and server clients. Create new policies or upload existing XML configurations exported from the ESET security software. Manage every available ESET configuration option including Spam, Firewall, HiPS, Device Control and Web Control modules.

**FULL DISK ENCRYPTION**
Deploy encryption packages to clients and activate clients’ licenses remotely. The plugin dashboard lets you filter machines based on encryption status, and other options include remote password change, as well as disabling of encryption.

**MONITOR THREATS**
View and sort threat data, see which client workstations have detected threats, the time of detection, the name of the threat and any actions taken.

**DASHBOARDS**
At-a-glance views into protection status, product distribution, module update data, # of threats detected daily, deployment information and pending policy updates.

**REPORTING**
Export a report from the ESET DEM Plugin for ConnectWise Automate to view various data about client systems such as log details for scans, events, and threats, license utilization, and unprotected systems.

**ALERT MANAGEMENT**
ConnectWise Automate ‘Internal Monitors’ attribute that allows for alerts on the status of your ESET environment.

**Benefits**

**COMPREHENSIVE, CROSS-PLATFORM SECURITY**
Offer best-of-breed antimalware options to your network of managed clients. Replace existing solutions for ESET’s clients requiring low system resource usage and proactive detection of multiple threat vectors using advanced malware detection technologies.

**HELP ENSURE COMPLIANCE FOR YOUR CLIENTS**
Endpoint security and encryption make for a great combination to cover the complex requirements of complex data regulations and laws such as HIPAA, GDPR, SOX or PCI-DSS. The plugin helps your clients meet those compliance requirements in an easy and effective way.

**EASE OF MANAGEMENT**
The familiar ConnectWise Automate console provides ease of management and adoption of ESET solutions without requiring a second console. ESET solutions can be remotely deployed and activated using the plugin.

**PROVEN AND TRUSTED**
Real-time monitoring and remediation helps resolve security issues quickly and makes for confident helpdesk techs and satisfied end users.
EASILY MANAGE ESET ENDPOINTS THROUGH THE FAMILIAR CONNECTWISE AUTOMATE CONSOLE.
