Benefits

COMPREHENSIVE ENDPOINT SECURITY
Offer best-of-breed antimalware options to your network of managed clients. Replace existing solutions with ESET’s lightweight clients for low system resource usage and proactive detection of multiple threat vectors using advanced malware detection technologies.

Features

MANAGE CLIENT ENDPOINT SECURITY
Initiate on-demand endpoint scans and virus signature database updates.

MANAGE CLIENT CONFIGURATIONS
Set ESET-specific configuration policies on Windows®, Mac® or Linux™ clients. Create new policies or upload existing profiles. Manage every available ESET configuration option including Spam, Firewall, HIPS, Device Control and Web Control modules.

EASE OF MANAGEMENT
The familiar Connectwise Automate console provides ease of management and adoption of ESET solutions without requiring a second console.

SATISFIED END USERS
Real-time monitoring and remediation helps resolve security issues quicker and makes for confident helpdesk techs and satisfied end users.

COMPREHENSIVE ENDPOINT SECURITY

ESET Remote Administrator Plugin for Connectwise Automate integrates with the Connectwise Automate Control Center to provide central management of ESET Endpoint Solutions across distributed networks. Controlling ESET’s powerful, proactive malware detection using Connectwise Automate’s familiar console delivers care of endpoint deployment, on-going administration and a common interface for configuring and reporting.

MONITOR THREATS
View and sort threat data, see which client workstations have detected threats, the time of detection, the name of the threat and any actions taken.

SYSTEM REQUIREMENTS

ESET Remote Administrator 6.3+ ESET Remote Administrator 5.3.x
ESET Business Product Licenses
Active licenses of any of the following ESET endpoint products:

✓ ESET Endpoint Antivirus for Windows
✓ ESET Endpoint Security for Windows
✓ ESET NOD32 Antivirus Business Edition for Linux Desktop
✓ ESET Endpoint Antivirus for macOS
✓ ESET Endpoint Security for macOS

Also can be used to manage and monitor select ESET Windows or Linux File Server products.

ConnectWise Automate 10.5 or newer
To view Connectwise Automate system requirements, please visit Connectwise Automate’s website.

Alert Management
Configure email notifications that are automatically sent out when an endpoint has failed to update in a given period of time, is not communicating with the server, or other issues.

Report
Export a report from the ESET Plug-in for Connectwise Automate to view various data about client systems such as log details for scans, tasks, and threats, license utilization, and unprotected systems. Uses Connectwise Automate sorting/filtering/grouping model.

Dashboards
At-a-glance views into scanner status, system health, virus definition date, time of last threat, last threat type, and action taken.

Reports
Export a report from the ESET Plug-in for Connectwise Automate to view various data about client systems such as log details for scans, tasks, and threats, license utilization, and unprotected systems. Uses Connectwise Automate sorting/filtering/grouping model.

Alert Management
Configure email notifications that are automatically sent out when an endpoint has failed to update in a given period of time, is not communicating with the server, or other issues.

Monitoring and Management
Easily manage ESET endpoints through familiar Connectwise Automate console.

The ESET Remote Administrator Plugin for Connectwise Automate integrates with the Connectwise Automate Control Center to provide central management of ESET Endpoint Solutions across distributed networks. Controlling ESET’s powerful, proactive malware detection using Connectwise Automate’s familiar console delivers care of endpoint deployment, on-going administration and a common interface for configuring and reporting.

Connectwise Automate Remote Monitoring and Management (RMM) platform, Connectwise Automate Control Center is widely used to manage a variety of IT services including antimalware and endpoint security. ESET offers a solution for delivering best-in-class malware protection through the Connectwise Automate environment.

Easily manage ESET endpoints through familiar Connectwise Automate console.
