ESET® Cyber Security delivers fast, powerful protection to your Mac, helping you enjoy safer technology. On the Internet, your personal data is secured against theft by Anti-Phishing. The solution is designed to look after your security, while not getting in your way – ESET Cyber Security’s low system footprint takes care of that.

**Legendary antivirus technology**  
Multi-layered security protects you against all types of online and offline threats and prevents malware spreading to other users.

**Banking and privacy secured**  
Prevent unauthorized access to your computer and misuse of your data. Stay safe while making online payments and accessing e-wallets.

**Protect your IoT and webcam**  
Test your home router and smart devices for vulnerabilities. See and block any unexpected access to your webcam.

---

**Award-winning protection**  
Independent evaluators put ESET among the best in the industry, shown also by the record number of Virus Bulletin’s VB100 awards.

**State-of-the-art technology**  
Advanced Machine Learning, DNA detections and a cloud-based reputation system are just some of the cutting-edge tools developed in our 13 R&D centers.

**Made in the European Union**  
ESET values, like integrity, reliability and independence, all stem from our European roots and are safeguarded by our private ownership structure.
