

Award-winning security protection built for the ConnectWise MSP

ESET's award-winning security products are lightweight, fast, and built with ConnectWise MSPs in mind. As a longtime ConnectWise Solution Partner, ESET's integrations for ConnectWise Automate and ConnectWise Manage are built to optimize and align perfectly with the ConnectWise platform.

ESET's multilayered security includes protection for endpoints, servers, and mobile devices and can be purchased as a standalone option or in a convenient bundle solution. ESET Endpoint Encryption, powered by DESlock, is an easy-to-use full disk encryption product that can be completely managed through the ConnectWise Automate console.

ESET and ConnectWise Automate

DIRECT ENDPOINT MANAGEMENT

Engineered with the ConnectWise MSP in mind, the ESET Direct Endpoint Management solution connects ESET endpoints directly to the ConnectWise Automate console, with no additional hardware, servers, or intermediary software needed. This streamlined solution gets you up and running fast and keeps you running with fewer interruptions caused from complex integration.

- Easily deploy and manage endpoints through the ConnectWise Automate console
- Initiate on-demand endpoint scans, module updates, and security production activation
- Provide central management of endpoint solutions across distributed networks
- Advanced reporting and intuitive dashboard views

ESET Endpoint Encryption, powered by DESlock

ESET Endpoint Encryption powered by DESlock is a simple-to-use data encryption solution designed to protect important data and help meet regulatory compliance standards. Support for the full disk encryption (FDE) option is built in to the powerful Direct Endpoint Management Plugin, giving users full management and deployment control straight from the ConnectWise Automate Control Center with no additional servers to set up or consoles to maintain. ESET also offers granular encryption options as stand-alone solutions (not integrated with the Direct Endpoint Management Plugin) including file/folder, email and USB encryption.

Convenient purchasing options

ESET's multilayered security includes protection for endpoints, servers, and mobile devices and can be purchased as a standalone option or in a convenient bundle solution.

	 ENDPOINT ANTIVIRUS	 MOBILE SECURITY	 FILE SECURITY	 ENDPOINT SECURITY
ESET ENDPOINT PROTECTION STANDARD				
ESET ENDPOINT PROTECTION ADVANCED				

ESET ENDPOINT ANTIVIRUS

Base endpoint offering that includes our lightweight, multilayered threat prevention.

ESET MOBILE SECURITY

Lightweight endpoint security for Android mobile devices including antimalware, anti-phishing and anti-theft, as well as ESET Mobile Device Management for Apple iOS.

ESET FILE SECURITY

Server-optimized solution that utilizes our multilayered threat prevention.

ESET ENDPOINT SECURITY

Builds on ESET Endpoint Antivirus by adding a software firewall, web content blocking, endpoint antispam and botnet protection.
