ESET

Viewing an 'On Demand' Tutorial

1. **Screen Resolution: 1024 x 768**

   On Demand tutorials are best viewed at screen resolutions of 1024x768 pixels or higher. To verify or change your current display resolution settings, right-click on the **desktop's background** (not on an icon) and select **Properties**, then click the **Settings** tab.

2. **Flash Player Version: 8 or higher**

   On Demand tutorials are best viewed using Macromedia / Adobe Flash player version 8 or higher. If you experience display anomalies or problems with interaction, be sure to check if there's a newer version of the Flash player available for your web browser. Check http://www.macromedia.com or http://www.adobe.com for the latest player downloads.

3. **IMPORTANT - Security Settings for Flash Player: always allow, or always ask**

   To click on and follow links which are presented in On Demand tutorials make sure that you don't have restrictions in security settings for your Flash player which would prevent you from doing so. If you notice any problems, such as links not responding when you click it, then you most likely may have your web browser's Flash player currently configured with security restrictions. In order to fix this, visit Macromedia's web page at the link below and change your settings to either 'Always allow' or 'Always ask'.

   Adobe Flash Player™ Settings Manager

   Global Security Settings
   Some websites may access information from other sites using an older system of security. This is usually harmless, but it is possible that some sites could obtain unauthorized information using the older system. When a website attempts to use the older system to access information:

   ○ 🔆 Always ask   ○ ✅ Always allow   ◉ ⛔ Always deny

   Always trust files in these locations: Edit locations... ▼

   Note: The Settings Manager that you see above is not an image; it is the actual Settings Manager itself. Click the tabs to see different panels, and click the options in the panels to change your Adobe Flash Player settings.
